GLENDALE MEDIA CENTER WINS TOP 100 HONORS FOR INDUSTRY PROFILE ON PRODUCTION HUB WEBSITE

Glendale, Ariz. — The Glendale Media Center (GMC) has been recognized by Production HUB as making the PRO 100 list for being among the 100 most popular profiles on the industry-leading Production HUB website. Production HUB is an online marketplace that connects six million professionals and businesses with content creators. To determine the top 100 list, Production HUB uses overall cumulative views, shares on social media, recommendations and profile robustness, which includes videos, credits and photos. Explore the award-winning Glendale Media Center profile [here](#).

This recognition for the Glendale Media Center comes just after hosting media from around the world for Super Bowl 49, played right next door at the University of Phoenix stadium, the most watched television event in U. S. broadcast history. Broadcasters from national and local news networks and syndicated entertainment shows broadcast more than 150 live shots during the Super Bowl. The Glendale facility was also a location for one of NBC's Game Day broadcast cameras which showed viewers in 180 countries an exclusive picture of the buzz of activity at the stadium.

The Glendale Media Center will also be host to media coverage of the 2016 National College Football Championship, set for January 11. Check out what this state-of-the-art facility can offer you at www.glendalemediacenter.com
